

**IVATA Nominating/ Membership Committee
2016**

Chair: Sam Condie

Don Curry was voted in as our chairman for next years committee

Should we take the “vocational” out of IVATA? Is it outdated?

Some discussion and it was recommended that:

The committee decided we did some really neat things a few years ago with IQPS and IVATA was associated with that and we don't want to lose the name recognition that came along with it.

Discussion on making a new IVATA position concerned with member services, mentoring, professional development and website. Discussion on what the position entails... Shouldn't be any “real” cost associated with it.

Lorraine Wikoff moved that we open a membership services position through the IVATA to work with the University of Idaho to coordinate professional development, website construction, In-service, mentoring, ect... Dan Billington seconded

The committee recommends that the coordinator should get some professional development credits for their time.

Vote was unanimous

The committee wanted to show our appreciation to Nicole and Jaysa for building an amazing website that is very user friendly and makes our lives much easier.
